Aspiring front-end web developer, skilled in HTML/CSS, SCSS, JavaScript, JS-Dom, JQuery, Bootstrap, Responsive Web design. Adept at identifying opportunities to enhance front-end design and improve the UX. Above all, a meticulous learner, good at problem-solving, passionate about altruistic causes using technology and stay updated with the latest industry trends. I always looking for new challenges to grow as a developer and excited to contribute my skills to a dynamic innovative team.
